THE STANIER MOGUL FUND
42968 – A LIFETIME'S COMMITMENT

Administration and Future Contingency Funding are not the most glamorous of subjects to quicken the heart beat; nevertheless, they are both essential criteria in our core activities of keeping 42968 on the tracks and in steam for the foreseeable future.

With funding channels in place for future overhauls our attention must turn to secondary funding of which, Administration and Contingencies top the list. Traditional fundraising sources for these purposes are today, becoming ever more difficult to achieve, and we believe that **now** is the time to address them.

Although tightly controlled, administration costs will always need servicing and some, including printing and postage costs of SMF News, are vulnerable to price increases beyond our control. Likewise, with many uncertainties facing the steam railway heritage movement a contingency fund is, we believe, a sensible option to take. To address these two issues **now,** will ensure that today's problems do not become our millstones of tomorrow.

We believe that a small monthly financial commitment from our membership will be sufficient to meet these needs, and ease the fears of your Committee of Management during the coming years; whilst at the same time enabling you to increase your financial holding in the Stanier Mogul Fund.

Simply decide how much you want to contribute between £2 and £5 per month (in £1 steps) to the ***SMF 42968 A Lifetime's Commitment Subscription Scheme,*** then complete the attached standing order form and return it today, to our Treasurer Dick Lewis at the address shown. Your contributions will be formally receipted by certificate at intervals of not more than two years.

"They say that there is more satisfaction in giving than receiving. Each time I look at 42968 I never begrudge a penny of what I have contributed to our Fund over the years. Just to lay eyes on her is like renewing my acquaintance with an old friend, and I know that the pleasure she gives to me can never be counted in £'s. A knowing wink from her whenever she sees me is priceless, and that is all I ask of her in return".
